PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/588,860	Applicant(s) SIEMERS ET AL.	
	Examiner James H. Cho	Art Unit 2819	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of the Pre-Amendment filed 8/9/2006.

Drawings

The drawings are objected to because Figs. 4, 7 and 9 contains foreign language, e.g. Stufe, wertiges, Funktional. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance

Art Unit: 2819

with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities: the wording "figure 5 shows" on line 15 of page 16 should be -- figures 5a, 5b and 5c show --.

Appropriate correction is required.

Claim Objections

Claim 10 is objected to because of the following informalities:

"the input" on line 7 appears to be -- input --, "the identifiers of the individual" on lines 10-11 appears to be -- identifiers of individual --, and "the output" on line 7 appears to be -- output --.

Appropriate correction is required.

Allowable Subject Matter

Claims 10 -17 are allowable over the prior art of records if rewritten to overcome the claim objection stated above.

The following is a statement of reasons for the indication of allowable subject matter: Although Landers et al. (US 2002/0002573 A1) teaches a reconfigurable processor, one of ordinary skill in the art would not have been motivated to modify the

teaching of Landers et al. to further includes, among other things, the specific of a third stage, connected downstream of the second stage, with outputs and with means for disjunctive logic combination of the output values from the individual implicants from the memory elements in the second stage, where output variables from at least some of the outputs at a time t_{n-1} form the input variables on associated inputs of the sequential circuit at a time t_n and where means are provided for clock-controlled storage of the output variables from the sequential circuit between the times t_{n-1} and t_n as set forth in the claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Cho whose telephone number is 571-272-1802. The examiner can normally be reached on Monday-Friday 6:30 AM - 3:00 PM.
